GitHub: <https://www.github.com>

My father is an Auto-driver and my mother is a housewife. I have always had an interest in computers, and this is the reason behind me working towards my goal to become a Software Developer. I did my schooling from a NGO called MOLANA_ABUL_KALAM_AZAD SCHOOL. I have completed my 12th from National Institute Of Open Schooling(NIOS) and joined Navgurukul. Still I am studying in Navgurukul.

Academic Period Spent in NavGurukul So Far 12 months.

React.js Projects

COVID-19 DYNAMICS ([code](#))

I have used Coronavirus's **API** in it which keeps the data of the entire country. And that's how I put it in the table of HTML (Like). In the proof below, the screenshots of which the pictures are given....

weather-App ([code](#))

Weather is the state of the atmosphere, describing for example the degree to which it is hot or cold, wet or dry, calm or stormy, clear or cloudy. On Earth, most weather phenomena occur in the lowest level of the planet's atmosphere, the troposphere, just below the stratosphere

Projects

Social_Media_Auth ([code](#))

I have made social media **auth**. like Facebook, Google and Instagram, In this, there is a Man 3 (with photo) button, which automatically becomes Aut when clicked.

Todo_List APP [\(code\)](#)

The definition is a simple one. It's a list of tasks you need to complete, or things that you want to do. Most typically, they're organised in order of priority. Traditionally, they're written on a piece of paper or post notes and act as a memory aid.

Google News APP [\(code\)](#)

I have used the news **API** in it. And I have also used third party **Axios** in it. And I try to make it more like that. (API key only 2 to 3 hours working)

SARAL/MERAKI APP [\(code\)](#)

I made an e_learning website about Saral/Meraki. I am using the **API** with Axios ...

Javascript Projects

Calculator.js [\(code\)](#)

I made a Calculator. A calculator with the basic functions and a customizable widget. And I am using HTML and CSS.

TREASURER @ NavGurukul

It is a great opportunity for me to work as Treasurer in Navgurukul in which I am managing the budget and food items of the campus. Being part of the disciplinary committee in Navgurukul, I was responsible for overall discipline and decorum. I learned to use my leadership skills among 50 students to manage budgets across campus, which requires leading by example and sometimes taking strong action against the tide.

Experience

NavGurukul

Learning Software Engineering with a one-year residential Programme and also learning many social & teamwork related skills like scrum methodology and coding all day doing other life skill activities.

Education

MOLANA ABUL KALAM AZAD, DHOLKA, GUJARAT, AH'D

I have passed the 12th(bio) with 58 percent from G.S.E.B. (2016)
I completed 10th class with 68 percent from M.P.B.S.E. (2014)

Additional SKILLS

- Python,HTML and CSS completed
 - Javascript completed
 - React.js completed
-
